

NKOSIPHILE SONO

Graduate / Aspiring Software Engineer | BSc Computer Science & Informatics (UJ, 2025)

Sophiatown, Auckland Park 2092 | 076 612 5835 | nkosiphile005@gmail.com | GitHub: github.com/NkosiphileSono | Portfolio: <https://nkosiphilesono.onrender.com/> | LinkedIn: <https://www.linkedin.com/in/sono-nkosiphile-808517263/>

PROFILE

Computer Science graduate (BSc Computer Science & Informatics, UJ 2025) with hands-on experience tutoring Java, C#, and SQL, and building full-stack applications using ASP.NET Core and React. Strong fundamentals in OOP, data structures and algorithms, and relational database design, with a focus on clean, maintainable code. Known for clear communication and structured problem-solving. Seeking An entry-level position to contribute to delivery teams, learn from mentorship, and grow into a high-impact software engineer.

Highlights: Student Assistant supporting 30+ students weekly | Full-stack projects in ASP.NET Core + SQL Server and React | Strong DS&A + OOP fundamentals

TECHNICAL SKILLS

Languages: Java, C#, JavaScript, SQL

Frontend: React, React Native, HTML5, CSS3 (Responsive design, Grid/Flexbox)

Backend: ASP.NET Core, Node.js + Express, REST APIs, Java

Databases: SQL Server, PostgreSQL, MySQL (Schema design, normalization, query optimization)

Tools: Git, GitHub, Visual Studio, VS Code

Core concepts: OOP, Data Structures & Algorithms, Debugging, Agile basics

Technical strengths: CRUD workflows, API fundamentals, authentication/authorization, clean code, responsive UI, problem decomposition

EXPERIENCE

Student Assistant

Academy of Computer Science and Software Engineering, University of Johannesburg | 2025

- Supported 30+ students weekly with Java, C#, and SQL practicals and assignments; explained solutions and improved problem-solving approach.
- Facilitated tutoring sessions on object-oriented programming and data structures & algorithms, focusing on clean coding practices and edge cases.

- Debugged code issues with students and guided them on problem decomposition and effective IDE usage.
- Collaborated with faculty to identify recurring learning gaps and created supplementary examples/notes to support labs.

PROJECTS

To-Do List App

Technologies: React, JavaScript, CSS, LocalStorage | Repo:

<https://github.com/NkosiphileSono/to-do-list>

- Built a task management application using React Hooks (useState, useEffect) and reusable components.
- Implemented full CRUD: add, edit, delete, and mark tasks complete, with persistence via browser storage.
- Designed a clean, responsive UI for mobile and desktop viewing using modern CSS layout (Flexbox/Grid).
- Documented setup and features in the README (screenshots and run steps).

E-Commerce Web Application (School Project)

Technologies: ASP.NET Core, C#, SQL Server, Entity Framework, Razor Pages, Bootstrap

- Built a full-stack e-commerce application with login and authorization, supporting core shopping workflows.
- Designed a normalized SQL Server schema for products, users, orders, and order items; implemented Entity Framework models and validation.
- Implemented product and cart workflows and integrated data access via Entity Framework.
- Delivered responsive pages using Razor Pages and Bootstrap with clear UI structure.

Portfolio Website

Technologies: HTML5, CSS3 (Grid/Flexbox), Render | Repo:

<https://github.com/NkosiphileSono/my-portfolio-web> | Live:

<https://nkosiphilesono.onrender.com/>

- Designed and developed a responsive portfolio site to showcase projects, skills, and contact details.
- Added clean UI interactions and smooth transitions using modern CSS techniques.
- Deployed via render and maintained code in a public repository.

ENTRY-LEVEL FIT

- Comfortable learning new tools and frameworks quickly and applying feedback through mentorship.
- Strong communication skills demonstrated through tutoring and explaining technical concepts clearly.
- Team-oriented mindset with an interest in structured delivery environments and continuous improvement.

CERTIFICATIONS & SHORT COURSES

- Microsoft Learn – C# / .NET Fundamentals (2024)
- freeCodeCamp – Responsive Web Design (2025)
- Azure Fundamentals (AZ-900) – In progress

EDUCATION

University of Johannesburg | 2023 - 2025

BSc in Computer Science & Informatics

Key focus areas: Object-Oriented Programming, Data Structures & Algorithms, Databases

National Senior Certificate | 2022

Mathematics: 96% (Top Achiever) | 3rd Position in School Circuit

ACHIEVEMENTS & ACTIVITIES

- Selected as Student Assistant (2025) to support Computer Science students and faculty.
- UJenius Club Member (2023).
- Top Achiever in Mathematics (96%) and 3rd Position in School Circuit (2022).

LANGUAGES

English – Professional proficiency

Siswati / isiZulu – Fluent
